PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience designing, developing, and maintaining web applications. Experienced in Python, Django, REST APIs, SQL, PostgreSQL, JavaScript, React, and Git. Strong background in backend API development, database design, authentication, frontend integration, and debugging. Interested in building scalable and secure applications with clean and maintainable code.

TECHNICAL SKILLS

Programming: Python, JavaScript, SQL

Frontend: HTML, CSS, JavaScript, React.js

Backend: Python, Django, Django REST Framework, REST APIs

Databases: PostgreSQL, MySQL

Tools: Git, GitHub, Postman, VS Code

Concepts: OOP, Data Structures, Authentication, API Integration, Database Design

Other: JSON, HTTP, CRUD Operations

PROFESSIONAL EXPERIENCE

Full Stack Developer — TechNova Solutions

Chennai, Tamil Nadu | June 2023 – Present

- Developed and maintained web applications using Python, Django, React, and PostgreSQL.
- Designed and implemented REST APIs for frontend and third-party application integration.
- Developed CRUD operations and optimized SQL queries for application databases.
- Implemented user authentication and role-based access control.
- Integrated React frontend components with backend REST APIs.
- Used Git and GitHub for version control and collaborative development.

- Tested APIs using Postman and investigated application errors and performance issues.
- Worked with team members to identify requirements, fix bugs, and deploy application updates.

Software Developer Intern — WebWorks Technologies

Chennai, Tamil Nadu | January 2023 – May 2023

- Developed backend modules using Python and Django.
- Created SQL queries for retrieving and updating application data.
- Assisted in developing REST API endpoints.
- Fixed frontend and backend integration issues.
- Used Git for source-code management.

PROJECTS

E-Commerce Web Application

Technologies: Python, Django REST Framework, React, PostgreSQL

- Developed a full-stack e-commerce application with product, cart, order, and user management.
- Created REST APIs for product and order operations.
- Implemented JWT-based authentication.
- Designed PostgreSQL tables and relationships for application data.
- Connected React frontend components with backend APIs.

Employee Management System

Technologies: Python, Django, SQL, HTML, CSS, JavaScript

- Developed an employee management application supporting employee registration, updating, searching, and deletion.
- Implemented CRUD functionality using Django and SQL.
- Designed database tables for employee and department information.
- Added authentication and basic role-based access control.

EDUCATION

B.E. Computer Science and Engineering

Anna University

2022

CERTIFICATIONS

- Python Programming Certification
- SQL and Database Management Certification
- REST API Development Certification

SOFT SKILLS

- Problem Solving
- Communication
- Team Collaboration
- Time Management
- Analytical Thinking
- Adaptability

LANGUAGES

English, Tamil
